Mount Royal Mennonite Church
Electronic option for giving

Our church is connected to a service whereby your donations may be made electronically using your credit card. The service is called   TITHE.LY. What follows is an introduction to that service. You are not obligated to use it, but you may do so if and when you wish. Use it to donate regularly, when you are away or for whatever reason suits you. You may use TITHE.LY from your smart phone or from your computer.

TITHE.LY features:

- You can make your donation from anywhere that you can access the Internet with your smart phone or computer.
- You can make each donation separately or set yourself up for recurring giving either weekly or monthly.
- You can designate your donation to any of the categories that have been set up.
- You will almost instantly receive an email confirmation of the amount that you have given.
- You can check your records for amounts given through TITHE.LY.
- The mobile App is available from either the App Store (iPhone) or Google Play (Android).

TITHE.LY Costs:

- There is no cost to you to set yourself up to use TITHE.LY or when you use it to make a donation.
- There was no cost to the church to set up the process to receive donations via TITHE.LY and have the donations deposited to our bank.
- Each donation made through TITHE.LY is charged to the church in much the same way that a merchant is charged when a credit card is used for a purchase. Our cost is 2.9% of the donation's $ amount, plus $.30 per donation. These charges are deducted from the donation amount.
- As a donor you may choose to cover the charges.

TITHE.LY Not Yet:

- So far only Credit Cards are supported in Canada. You are not able to use TITHE.LY to make a donation directly from your bank account (i.e. Use a Debit Card). This feature is not yet available in Canada.

If you wish to check things out on the TITHE.LY website go to: http://get.tithe.ly/

Note: The **'LOGIN'** link at the top of the page is the login for administrators to use to set up and manage the church profiles on TITHE.LY. Do not try to use this login if you wish to set up an online giving account, use the link provided on the following page.

Mount Royal Mennonite Church

Electronic option for giving

TITHE.LY Mobile

The TITHE.LY Mobile app looks something like this:

If you search for tithe.ly in either the Apple App Store, or in Google Play, you should find it. The icon looks something like this.

Tithe.ly was developed for mobile and is quite stable and secure as a mobile app. Several people use it regularly and find that it works well, and is easy to use.
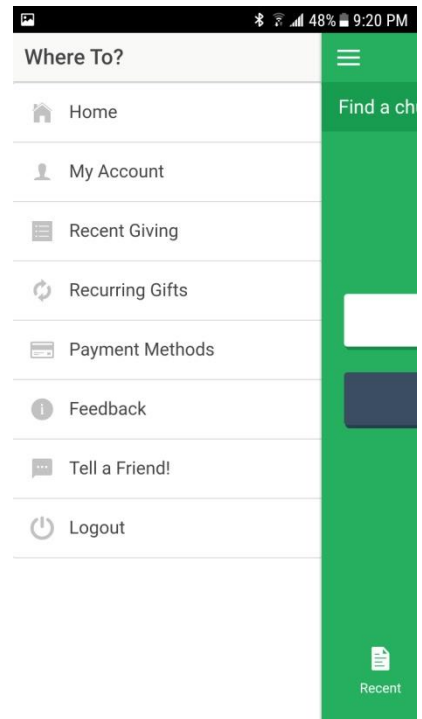

- You will be prompted to login or set up an account.

- You will use your email address to set up the account.

- In addition to a password, you will be prompted to set up a pin number (this provides two levels of security – which is good).

- Next, you will be prompted to set up a method of payment. This is where you register the credit card that you will use to make your donations.

- Once you have set up your account and your payment method, you can login and the app will find the nearest church that is connected to TITHE.LY. Key Mount Royal into the search box and you should be prompted with our church name and address. **Select it**.

- When you make a donation you can (but are not required to) key your MRMC giving number into the member box and your number, together with your name, will be provided to our Donations Record Keeper, along with the amount of your donation. All of your TITHE.LY donations to MRMC will be included in your year-end receipt.

- The three small bars on the top left will bring down a drop down menu as shown to the right. You can use it to check records, change your account, logout, etc.

TITHE.LY Online

TITHE.LY online, Windows or Apple, is very much the same as Mobile.TITHE.LY.

Use the link below to go to the login page for TITHE.LY giving to 'Create Account' or to 'Login' once you have created an account at TITHE.LY. [TITHE.LY Giving Login](#) For easy access in the future, I suggest that you bookmark the page in your browser.
