- 10) **InCERT:** The new year gives us opportunity to refresh our personal goals in living in environmentally responsible ways. Here's what Climate Hero recommends: A good start is to calculate and reflect on your own climate impact for 2025. With ClimateHero's Carbon Calculator, <https://carbon-calculator.climatehero.org/?source=emailSP-cu> you can calculate your carbon footprint in just 5 minutes. You'll get feedback on what you're already doing well, along with suggestions for how to reduce your footprint. The reduction suggestions you accept are saved as your climate pledge, i.e. your New Year's resolution for 2026.
